Bylaws Committee Report Spring 2018 Business Meeting

The Bylaws Committee was tasked with performing a comprehensive review of the bylaws document; reviewing its contents, separating that which should be considered policy and procedures, and providing clarity and structure of the rules in which govern the organization. Committee members met via teleconference on multiple occasions over the past several years. And, in accordance with comments presented at previous Executive Board, Committee and membership meetings the end result is the creation of two documents, the bylaws document and the rules and procedures manual.

The attached Bylaws and Rules of Procedures drafts are presented for your consideration of approval during the Spring Business Meeting.

As previously mentioned, this process has been underway for several years. Sincere appreciation is expressed to the current and past members of the Bylaws Committee for their hard work as well as to the organization for your patience as we completed this process. Should you have any questions, I can be reached at 314-524-5152.

Respectfully Submitted,

Octavia Pittman
